Integrated Wallet

Seamless experience with our integrated crypto wallet

The current blockchain gaming user experience is complicated, similar to the early internet. Our integrated wallet is **the solution for large adoption**:

- Abstracts away complicated blockchain mechanics
- Makes playing Cryptopia as easy as browsing the web in 2022
- Doesn't require MetaMask or other external software

Wallet Technology

Safe, Secure & Recoverable Multisig Wallet Technology

Your Cryptopia account is your wallet. Non-custodial with a baked-in Multisig feature, it functions as both an in-game and dedicated stand-alone wallet. It includes:

- On-Chain Multi Factor Authentication (2FA, MFA)
- Multisig Wallet (One Wallet can have multiple owners, makes it safe)
- Stores Native Cryptocurrencies (ETH), Tokens (ERC20) and NFT's (ERC721)
- Transfer, Swap, Buy and Sell directly from your wallet

Blockchain Will Change the Gaming Industry

We are at the beginning of a revolution

Blockchain gaming:

- Lets players truly own in-game assets
- Enables secure trading of these assets
- Lets players cooperate with developers & other players
- Gives players power to vote on changes
- Creates scarcity and immutability
- Offers complete transparency & security

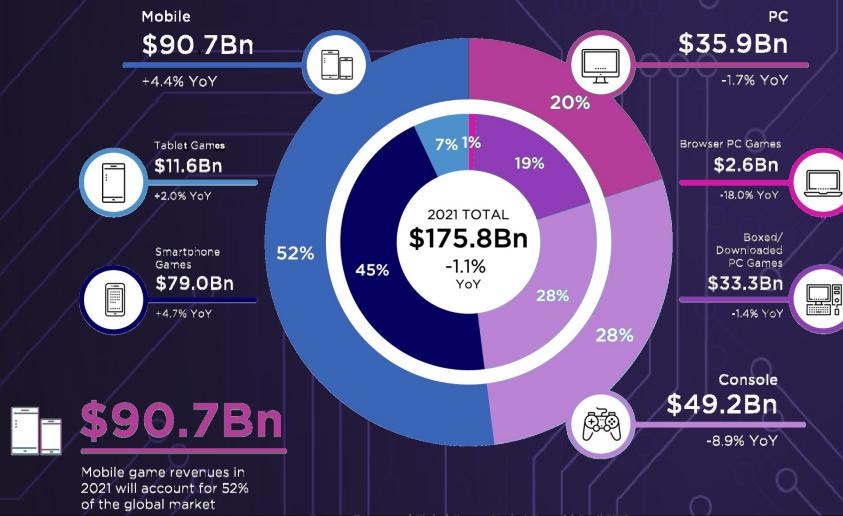

Global Games Market Report

"The metaverse trend is here to stay."

2021 Global Games Market

Per Device & Segment With Year-on-Year Growth Rates

- The games market will grow with a healthy CAGR (2019 to 2024) of +8.7% to reach \$218.7 billion in 2024.
- The metaverse trend, rapidly accelerated by COVID-19, is powerful enough to persist beyond COVID-19.
- Escapism, Socializing, and Time Filling will keep driving revenue growth.

Blockchain Game Market is Exploding

Despite limited gameplay, blockchain games generate huge value

2018

"Play-to-earn based tokens have been amongst the best performing cryptocurrencies, with GALA surging 31,500%, and AXS 20,800% from the previous year."
(BGA Blockchain Game Report 2021)

2019

2020

CRYPTOPIA

We're Building
A Blockchain Game
That Players Will Love

A World Based On

The Lost Revolutionary Whitepaper

The Story; A few years after Satoshi Nakamoto's Bitcoin white paper changed the world, another white paper of mysterious origin created a stir. A stir that changed the world: the reset of society! [Read it here.](#)

An Engaging Game

For Players and Investors

Cryptopia offers different kinds of gameplay and storylines. It keeps players interested, active, and connected rather than promoting passive holding of investments.

Cryptopia Features Two Types of Gameplay

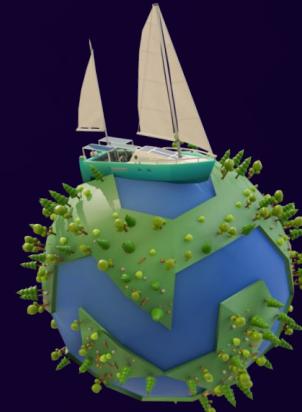

Making the game attractive for players with and without crypto

Tycoon

Buy and develop tiles to build your empire

Adventurer

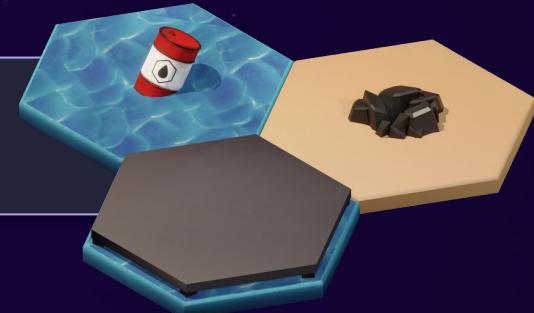

Choose a career, develop personal skills and earn

Tycoon Gameplay

Claim

Claim your piece of Cryptopia

Build

Construct mines, factories and more

DeFi Empire

Forge your way to blockchain tycoon

Build your own DeFi empire

Cash in on fees when other players use your DeFi projects

Not enough capital? Go Public!

Start a publicly traded company and allow other players to buy your shares (ERC20)

Become a Blockchain Tycoon

Reach the ultimate goal and build your own DeFi metropolis. Will you operate your own Dex or start a DeFi project right within Cryptopia?

By allowing other players to stake and trade using your services, you'll realize endless profits!

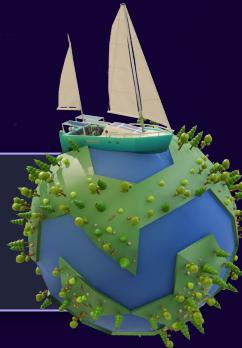

Stake and receive rewards

Adventurer Gameplay

Quests

Perform your duties while exploring

Skills

Leverage skills and build your career

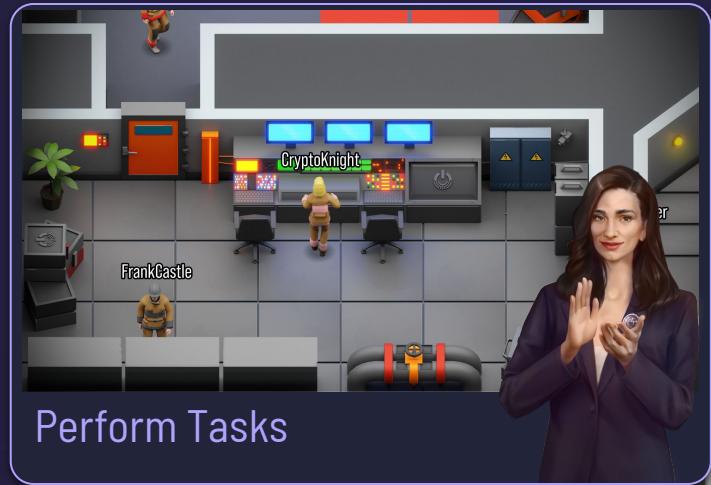

Rewards

Claim your loot and earn XP

Sabotage

Players can try to sabotage buildings of other factions

Perform Tasks

Sabotage

Monitor and Report

CRYPTOPIA

Loyalty

Protect against saboteurs by increasing loyalty with loyalty cards

Faction Vs. Faction

Creates continuous gameplay and sustainable interest in loyalty cards

How Infiltration Works

Only players with a loyalty card score higher than the building's can infiltrate.

60% Loyal

Vs.

80% Loyal

Their loyalty is weak. Your card score is higher than theirs, so you can infiltrate. Let's wreak some havoc, mate!

F2P and P2E work together

Staking and reward sharing - seamless blend of play mechanisms

High yield quests have entry limits. You may be required to hold certain NFTs or a specific amount of CRT in order to start these quests.

Does this mean that F2P players are left behind? Not at all!

Not enough assets?

Put your time on the market. Other players can hire you to perform quests and tasks.

or

Not enough time?

Rent your NFTs to skilled players who will quest for you. You determine the revenue sharing options.

Choose the playstyle that suits you best. Or do both. You decide.

F2P

Level up and increase your skills to be competitive

The better your stats, the better the chances are that you get staked!

Invest time to increase the attractiveness of your profile.

Utilize Non Fungible Tokens

Title Deeds (NFT)

Claim **land and sea tiles** to develop
your empire

Blueprints (NFT)

Construct **buildings** such as factories,
power plants and DeFi projects

Collect Non Fungible Tokens

0xw967...c984

Loyalty (NFT)

Start battles or defend your buildings with unique loyalty cards

0xcvw...t443

Ships (NFT)

Explore and develop Cryptopia in style using your personal ship

Players Operate on Three Levels

Player actions have consequences on three different levels

Player

Faction

World

Become a Tycoon or level up as an Adventurer

Players join the faction that matches their worldview

The Cryptopia world is immutable and influenced by its players

Player Level

Endless opportunities in a shared and open world

- Collect tokens and NFTs to use in the game
- Buy, sell, and trade tokens and NFTs
- Stake your tokens and NFTs
- Acquire land and develop properties on it
- Mine and harvest resources
- Fulfill quests and engage in battles
- Specialize and offer services to others
- Level up to earn or invest to earn

Faction Level

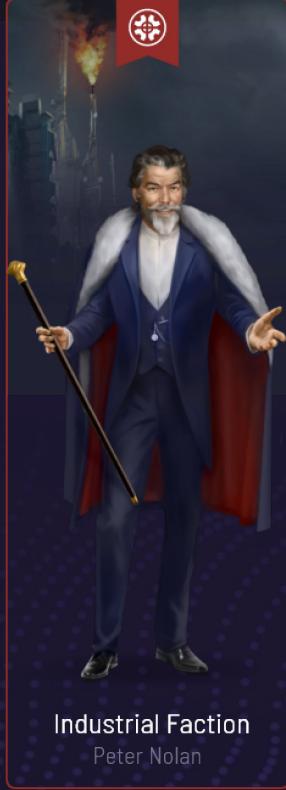

Players join the faction that matches their worldview

- The Industrial, Tech, Traditional and Eco factions compete for dominance
- Every faction has their own agenda, strengths & weaknesses
- Opposing factions compete with each other or may cooperate when it suits them
- Faction members communicate in their forum & choose a leader
- Stronger factions provide their players with bigger bonuses

	Climate	Profit	Production	Science	Cooperation
Industrial	★★★	★★★	★★★	★★★	★★★
Eco	★★★	★★★	★★★	★★★	★★★
Tech	★★★	★★★	★★★	★★★	★★★
Traditional	★★★	★★★	★★★	★★★	★★★

Meet the Facts

World Level

The Cryptopia world is immutable and influenced by its players

- Cryptopia is a full crypto economy. The local currency is an ERC-20 token mined and staked in-game.
- Public services will provide a broad range of paid services (e.g. building permits & degrees) and tax crypto transactions.
- Environmental factors impact everyone. Air pollution can limit permits for coal mines & force a shift towards renewables.

How Cryptopia will Engage Gamers

High scores on the Player Experience of Need Satisfaction (PENS) model

Competence

- Cryptopia is an engaging game, where players must invest time and effort to master all its strategic levels.
- Cryptopia rewards good players with experience (XP) points & rank advancements.

Autonomy

- Individual actions may have irreversible effects.
- Personal development increases voting power and influence.

Community

- All players are part of a team.
- Cooperation is a prerequisite for success.
- Cryptopians develop and communicate with other players in the forums.

Realized So Far

With funding from founders exclusively

- Acquired the domain Cryptopia.com
- Finished in the first two years of development:
 - Proof of concept; key technology works
 - (NFT, Native and Token) Wallet technology with multisig protection
- Developed art and storylines
- Created concept white paper
- Created Satoshi's heritage story white paper
- Created private demo

Roadmap

The next key milestone is a fully working public demo

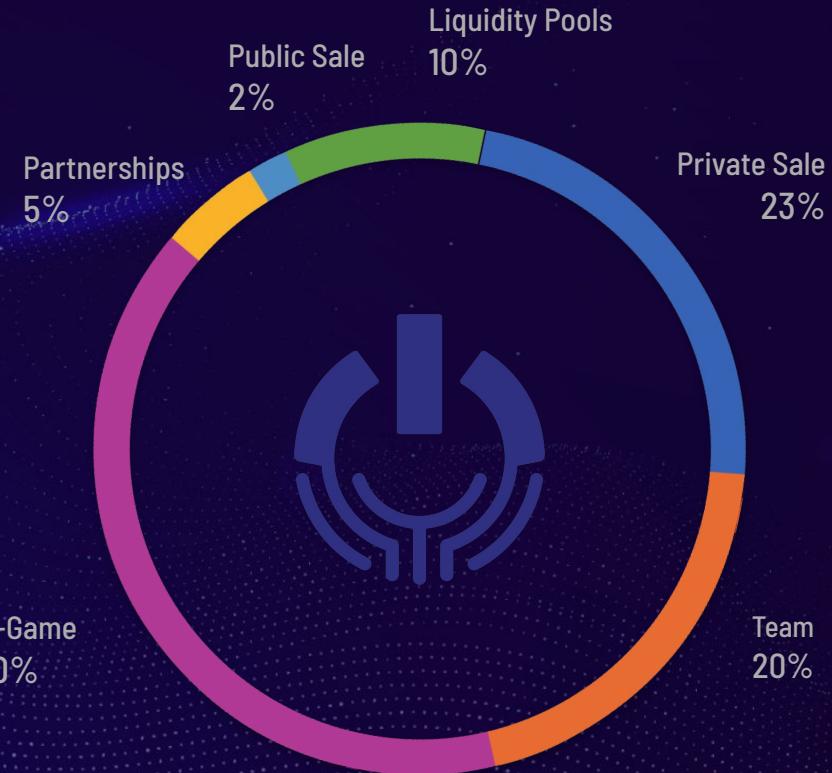

Initial investment to speed up creation of fully working public demo.

With the Loyalty Cards, we will increase our budget and build up momentum towards launch.

(*) Once development on Realm I is finalized and running stable, control can be handed off to a DAO.

Tokenomics

Token Sales

Max supply 10,000,000,000 Cryptopia Token (CRT)
